Boonah is an art studio located in West Pymble established in 1995. It has been a foundation for the creative process for people of all abilities.

Highly trained and experienced facilitators coordinate each session, bringing a unique mix of artistic and therapeutic talent, as well as experience in the disability sector.

Artists build confidence and resilience and enjoy inviting guests to visit the studio. Further promotion of their works happen throughout the year with artists working towards an annual art show. Proceeds go to the artists, recognising their talent and achievement.
