Disability Futures Brookvale
Unit 9B/44 Wattle Road

NDIS funding

Our computer program focuses on learning relevant and practical skills. Each week a new topic will be selected to engage the participants based on their goals and interests.

The clients will be encouraged to share their work with the group, facilitating communication skills, building on social participation and confidence.

This program is tailored to the individual. Upon joining the program our activity leader will conduct an assessment to determine skill level and how the team can support their learning.
