9.00am - 3.00pm

1A Clarke Road, Waitara

NDIS funding

If you are an animal lover and want to learn how to look after animals, you'll love this program.

Walks are scheduled at different times of the day and can be done individually, or within a group setting.

Our dog walking program aims to help individuals in our community who may not be able to walk their dog independently. In the process you will be exercising while making new pet friends and helping someone else in the community.
