

MAINTENANCE SKILLS

LEARN BASIC MAINTENANCE,
PLANNING & BUILDING SKILLS

Program code: **MS01**

Thursdays
9.00am - 3.00pm

3 McAuley Place, Waitara

NDIS funding

This program helps you develop skills and knowledge needed to be able to carry out basic maintenance tasks. You will be supported through the task planning, budgeting, purchasing and execution processes of basic maintenance projects. Great focus is given to the learning of safety in the workplace and while using tools.

Each week different jobs are allocated across different sites according to the needs and opportunities available. This program is also in charge of sourcing equipment and materials for a range of other programs.
