Clients work at their own pace to improve their reading and literacy skills. We have a staff member with teaching experience running this program.

Clients can join at any point, as new skills are explored each week. Clients interests will be infused throughout the program to ensure they are highly engaged and motivated to learn and participate.

Through this 12 week course clients will be able to take control of their own learning, identifying and reflecting upon their goals. Clients will be assessed to ensure we cater to all needs, abilities and goals.
